The masons, however, having no grievance, were employed on the work, and for this reason, it is alleged, several weeks ago the stone cutters passed a resolution that all stone cut by members of the Journeymen Stone and Marble Cutters' Association "should be set by members of the association only." It was decided that this resolution should go into effect the 15th instant, and the employing stone cutters were officially notified to this effect.

As the stone masons are allied with the bricklayers in the same national organization, and as it was maintained that the resolution adopted by the stone cutters was a violation of the bricklayers' and masons' international law referred to, the matter was brought to the attention of the bricklayers by the stone masons, and, in obedience to American plan. This statement is regarded by the bricklayers as being very unfair and misleading, as the bricklayers contend they have been forced by the unjust de-mands of the stone cutters to assume their present attitude in the matter.

Relative to the "defeat" alleged the bricklayers declare that about five years ago the stone cutters, notwithstanding the request of the bricklayers, did the stone work on the Washington and Georgetown Railway Company's power house on 14th street, when non-union bricklayers were employed in its construction. The brick-layers also state that they can cite many similar instances where the stone cutters have thus aided and abetted "scab" work-
